

Accepting Applications through **November 8, 2022**, from Washington State Supported Employment Providers! The ES-Coach is a web-based application designed to provide data-enabled feedback and micro learning to employment consultants and their managers to help them with implementing best practices in employment supports. Ultimately, the purpose is to improve employment outcomes of job seekers with disabilities.

In just 1 minute per day, Employment Consultants confidentially provide information about a specific 30-minute period. Once entered, micro learning or a daily tip is provided. [Watch Institute for Community Inclusion \(ICI\) ES-Coach demo.](#)

Data is collected in a dashboard. This data can guide goal setting, best practices, and employment outcomes.

### Time Commitment:

- **Managers:** Individual Data and Goal Setting Calls in **January & March** = 2 hours total
- **Employment Consultants:** complete **daily** survey @ 1 minute/day = 2 hours total
- **Everyone:** Orientation Call **November 16 @ noon** (or review recording) = 1 hour total
