

Investment in the Field Projects

We are pleased to announce a second round of **Investment in the Field Projects** starting in early 2023. This project is comprised of three different opportunities to build the capacity of WA state agencies.

Language Access Tools, Training, and Translation: Providing technology and training to allow for accurate and effective language access for more diversity in staffing and customer service through an Instant Language Assistant (ILA) which provides instant translation and transcribing of over 250 languages including American Sign Language.

(4-week duration, next offered 2023)

Participate if you can. This is a wonderful opportunity and resource. -Karyn (Kelso, WA)

Organizational Development Customized Training Systems: Use of the Wise Learning Center to customize and self-manage providers' own training program content and tracking. Training and technical assistance is provided for content, project management, and Wise Learning Center development.

(6-week duration, next offered 2023)

WISE has made it so easy for us and we are going to be a better agency because of it!

- Sheri (Yakima, WA)

Equity and Diversity Video Stories: Creating stories approximately 10 minutes in length, promoting employment and inclusion statewide. Priority will be given to historically marginalized or under-served communities and community members.

(8-week duration, next offered 2023)

Clearly LOTS of thought and preparation were the foundation of the success of this project.

-Deb (Yakima, WA)

Following registration and approval by a county, Organizations will be provided more detailed information outlining project parameters and time commitment for the desired project. **For more Info & to apply:** www.gowise.org/CapacityBuilding
