

Investment in the Field Project Organizational Development

We are pleased to announce **the Organizational Development Investment in the Field Project** running May – June 2023. This project is designed to support organizations to build staff capacity through the development of customized online training systems.

Customized Training Systems: Participants will receive training and technical assistance on content development, project management, and Learning Center site design and management. Upon completion, each organization will have an organizational training site customized to meet the needs of their staff, the knowledge to make additions/changes, and the tools to analyze and track staff progress. Ongoing, free access to the Learning management system dependent on the support of WA State DDA, annually.

(Project timeline: May – June 2023)

WISE has made it so easy for us and we are going to be a better agency because of it!

– Sheri (Yakima, WA)

Key Project Components:

Training Sessions: *(Recordings available for viewing if unable to attend scheduled sessions)*

Orientation Session: May 3, 2023 @ 10:00 am

Implementation Session: May 17, 2023 @ 10:00 am

Wrap-up Session: June 28, 2023 @ 10:00 am

Technical Assistance:

Organizations will be required to designate a project lead. The project lead will be assigned a technical coach that will provide guidance, support self-paced learning, and troubleshoot the development of the training site. Technical assistance coaching will occur between training sessions on a scheduled and as needed basis.

Organizational Support:

Participating organizations will receive outcome payments for completion of project milestones, sharing expertise and engaging in project assignments.

Registration and approval by a county are required for participation.
